Art Unit: 1616

I. Applicant's arguments filed 3/6/02 have been fully considered but they are not persuasive. Rejection of claims 1,3-5,7,14-16,21-25,29 and 30 under 35 U.S.C. 102(a,e) as anticipated by Timpe will be maintained for reasons on record and reasons as follows.

Applicant argues that the instant invention teaches "progressive hydration," whereas, Timpe (prior art) makes no mention of "progressive hydration". Examiner maintains that "progressive hydration" is an inherent property of Timpe's composition / method since Timpe's composition has the same limitations as the instant invention. Examiner suggests that applicant include unobvious % ranges, not covered by the prior art, in instant invention responsible for the "progressive hydration".

II. Rejection of claims 1-7,10,14-30 under 35 U.S.C. 103(a) over Timpe will be maintained for reasons on record and reasons as follows. See applicant's arguments above and examiner's response above.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however,

Art Unit: 1616

will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
